INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Biola Community Services District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Biola Community Services District (District), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Biola Community Services District, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2018

Note 1 – Summary of Significant Accounting Policies (Continued)

Governmental Fund Financial Statements - The Governmental Fund Financial Statements provide information about the District's funds. Separate statements for each fund category - governmental and proprietary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Non-operating revenues, such as investment earnings, result from non-exchange transactions.

The District reports the following major governmental fund:

General Fund – The General Fund is the general operating fund of the District and is always classified as a major fund. It is used for all financial resources except those required legally, or by sound financial management to be accounted for in another fund.

Basis of Accounting

The Government-Wide and Proprietary Fund Financial Statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants, entitlements and donations are recognized in the fiscal year in which all eligible requirements have been satisfied.

Governmental Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property taxes, interest, certain state and federal grants and charges for services are accrued when their receipt occurs within sixty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financing sources.

Proprietary Funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as non-operating.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2018

Note 1 – Summary of Significant Accounting Policies (Continued)

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

	Years
Buildings, structures and improvements	20 - 30
Water and sewer utility plants and improvements	25 - 30
Equipment	5 - 15

Long-Term Obligations - In the Government-Wide Financial Statements, and Proprietary Fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or Proprietary Fund Type Statement of Net Position. Debt principal payments of both government and business-type activities are reported as decreases in the balance of the liability on the Statement of Net Position.

Net Position - The government-wide and business-type activities fund financial statements utilize a net position presentation. Net position is categorized as net investment in capital assets, restricted and unrestricted.

- Net Investment in Capital Assets This category groups all capital assets, including infrastructure, into one component of net position. Accumulated depreciation and the outstanding balances of debt that are attributable to the acquisition, construction or improvement of these assets reduce the balance in this category.
- Restricted Net Position This category presents external restrictions on net position imposed by creditors, grantors, contributors or laws or regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Net Position This category represents net position of the District, not restricted for any project or other purpose.

 $Fund\ Equity$ – In the fund financial statements, governmental fund balance is made up of the following components:

- Nonspendable fund balance typically includes inventories, prepaid items, long-term portion of loans receivable, nonfinancial assets held for resale and other items that must be maintained intact pursuant to legal or contractual requirements, such as endowments.
- Restricted fund balance category includes amounts that can be spent only for specific purposes imposed by creditors, grantors, contributors, or laws or regulations of other governments or through enabling legislations.
- Committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Board of Directors. The Board of Directors has the authority to establish, modify, or rescind a fund balance commitment.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2018

Note 2 - Cash and Investments

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that categorizes the inputs to valuation techniques used to measure fair value into three levels. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2: Inputs to valuation methodology include inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within a fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The District is considered to be an involuntary participant in an external investment pool, which is under the direct authority of the Fresno County Treasurer and Tax Collector and governed by the California Government Code. The fair value of the District's investment in the pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

The District's only investments, which are allocated at fair value, are in the County of Fresno Treasurer's Investment Pool. The County invests in numerous types of investments ranging all levels in the fair value hierarchy. Accordingly, it is not an investment type that can be categorized in any particular level in the fair value hierarchy.

Authorized Deposits and Investments

The District's investment policy authorizes investments in the County of Fresno Treasurer's Pooled Cash Portfolio and the California Local Agency Investment Fund (LAIF). The District's investment policy does not contain specific provisions intended to limit its exposure to interest rate risk, credit risk, custodial risk, and concentration of credit risk.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that would further limit investment maturities as a means of managing its exposure to fair value losses arising from increasing rates.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2018

Note 2 – Cash and Investments (Continued)

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Note 3 – Accounts Receivable – Utilities, net

The accounts receivable –utilities, net balance consists of the following balances as of June 30, 2018.

	 Water	Wa	ste Disposal	Total
Accounts receivable	\$ 20,949	\$	28,069	\$ 49,018
Allowance for uncollectible receivables	(2,000)		(2,000)	(4,000)
Accounts receivable, net	\$ 18,949	\$	26,069	\$ 45,018

Note 4 – Interfund Activities

Interfund receivables and payables consist of short-term loans resulting from regular transactions. These loans are expected to be repaid as soon as the borrowing fund has available cash resources. Individual fund interfund receivables and payables balances as of June 30, 2018 are as follows:

	-	Due From		Due To
General Fund	\$	-	\$	212,375
Water Fund		223,250		_
Waste Disposal Fund		2,906	-	13,781
	\$	226,156	\$	226,156

The purpose of the majority of transfers is to reimburse a fund that has made expenditures on behalf of another fund. Transfers within fund types have been eliminated with the government-wide financial statements. There were no transfers in and out for the year ended June 30, 2018.

NOTES TO FINANCIAL STATEMENTS YEAR ENDED JUNE 30, 2018

Note 5 – Capital Assets (Continued)

Depreciation expense was charged to the following functions in the Statement of Activities:

Governmental Functions:

General Government	\$ 64,420
Business-Type Functions:	
Water	\$ 105,255
Waste Disposal	 89,465
	\$ 194,720

Note 6 - Long-Term Debt

Long-term debt at June 30, 2018, consisted of the following:

	Balance ly 1, 2017		Additions	Retirements	Ju	Balance ne 30, 2018	Current Portion
Business-Type Activities Long Term Debt							
Safe Drinking Water Loan	\$ 4,573	\$	-	\$ 3,022	\$	1,551	\$ 1,551
Berkadia Commercial Loan	9,000		-	9,000		-	_
Department of Water Resources Loan	88,500		_	8,850		79,650	8,850
John Deere Capital Lease	 8,590	-	_	2,281		6,309	2,415
Total Business-Type Activities Debt	\$ 110,663	\$	_	\$ 23,153	\$	87,510	\$ 12,816

Long-term debt payable at June 30, 2018 was comprised of the following individual issues:

Safe Drinking Water Loan – In October 1991 the district entered into a loan payable for \$52,500 with the State of California to fund improvements to the district water facilities. The loan is payable in semi-annual payments of \$1,577 on October 1 and April 1, each year beginning April 1, 1994 for a period of 25 years. The interest rate is 3.46% per annum. Real and personal property were pledged to guarantee the loan.

Berkadia Commercial Loan – In February 1978 the district entered into a loan payable for \$148,000 to fund improvements to the district water facilities. The loan is for a term of 40 years ending in February 2018 with an interest rate of 5.0% per annum. Annual payments average \$8,000 per year including interest. Debt service payments are due in August and February each year.

Department of Water Resources Loan – In July 2006 the district entered into a loan payable for \$177,000 with the State of California Department of Water Resources to fund improvements to the district water facilities. The loan is payable in semi-annual payments of \$4,425 on July 1 and January 1, each year beginning July 1, 2006 for a period of 20 years. The loan is non-interest bearing. Water revenues were pledged to guarantee the loan.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors Biola Community Services District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Biola Community Services District, (the "District") as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise District's basic financial statements, and have issued our report thereon dated November 21, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Biola Community Services District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Biola Community Services District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.
